**SUGA’S CHAIRMAN DR. NG CHI HO IS CONFERRED
THE TITLE OF UNIVERSITY FELLOWSHIP BY HONG KONG POLYU**

Suga International Holdings Limited (“SUGA” or the “Group”) (stock code: 912), a leading electronic total solutions provider with a pet food and accessories business, has announced that **Dr Ng Chi Ho, Chairman of the Group**, today was conferred the title of University Fellowship by The Hong Kong Polytechnic University (“PolyU”) in recognition of his outstanding contribution to PolyU and community.

Dr Ng’s relationship of long standing with PolyU started when he first joined the Hong Kong Polytechnic as a lecturer in the Department of Electronic Engineering. For four years, he devoted his efforts nurturing young talent towards their goals in the electronic industry. Some of his students have become leaders in their chosen fields, while others are now University Council Members. Furthermore, Dr Ng is a keen supporter of PolyU both through donations and by serving on the Advisory Committee of the Department of Electronic and Information Engineering, where he has provided industry advice. His company SUGA is a Life Member of the PolyU Foundation.

Dr Ng also contributes to society through active participation in public service. He is the Chairman of the Hong Kong Electronic Industries Association, Honorary Chairman of the Hong Kong Electronics Industry Council, Vice Chairman of the Dongguan Electronic Industries Association, Advisor of the Technology Development Committee of Federation of Hong Kong Industries, a Member of the Electronics Expert Panel of Hong Kong Science and Technology Parks Corporation, and the Assessment Panel Member under the Enterprise Support Scheme of the Innovation and Technology Commission. He has been dedicated to connecting industries and facilitating expansion into overseas markets, witnessing the rapid growth of Hong Kong's electronic industry. In 2017, electronic products accounted for two-thirds of Hong Kong's total export value, making it the biggest contributor to the Hong Kong economy in terms of exports.

Dr Ng said, “I am most delighted and deeply honoured to receive this prestigious title of University Fellow from PolyU. Running a business is similar to conducting research at university as one must keep up with changing times through lifelong learning. PolyU has long been an important partner of the industry and their research has always been in line with industry trends. We must strengthen our capabilities in this area to achieve sustainable growth and keep pace with the keen competition in the global market. In view of this, I have actively invested in start-ups, hoping to support new talent. A pipeline of quality talent is essential to this innovation and technology development. I am confident that PolyU will continue to empower aspiring professionals with the knowledge, insight and entrepreneurship to make great contributions to the technological innovations in Hong Kong.”

Presided over by Mr Chan Tze-ching, Chairman of the University Council, the conferment ceremony was held at the Jockey Club Auditorium on the PolyU campus. The recipients were warmly greeted by PolyU President, Professor Timothy W. Tong and other senior staff members of PolyU.
